Project Design Phase-I

Team ID	PNT2022TMID28961
Project Name	Gas Leakage Monitoring and Alerting System
Maximum Marks	2 Marks

Solution Architecture:

Solution architecture is a complex process with many sub-processes that bridges the gap between business problems and technology solutions. Its goals are to:

➢ Detects the gas level in the atmosphere continuously.

➢ To construct a device that protects the people by avoiding explosion due

to gas leakage.

➢ The device must be cost effective and user friendly.

ARCHITECTURE:
